World Academy of Ayurveda

In 1956, on the auspicious occassion of Dhanvantari Jayanti, a meeting was held in the Universal Health Research Institute and Hospital, Lamingtan Road, Bombay which was attended by World Ayurveda leaurates Pt. Shiv Sharmaji; Director of Ayurveda Maharashtra Government, Pt. Hari Datt Shashtri; Head of Sanskrit and Ayurved Departments of Bhartiya Vidhya Bhawan, Bombay, Acharya Prabhakar Mishra; Renowned Vaidya of Ayurveda Pt. Suresh Prashad Chaturvedi and Pt. Ram Gopal Vaidya, Acharya of Punarvasa Ayurvidyalaya, Bombay. In this meeting decision was taken to provide benefits of the oldest life science to the world. In order to achieve this objective and all round Research and Development of Ayurveda there is a need of creating a world organization. In this meeting unanimous decision was taken to name the organizaiton as World Academy of Ayurveda. Vaidya Haridatt Shashtri, Director of Ayurveda Maharashtra presented the draft constitution of the Academy. Pt. Shiv Sharma made some additons and alternations and finally decided to get it registered under Societies Registration Act. It was also decided that Academy should legally be instituted. Dr. K.M. Munshi former Governor of Uttar Pradesh and Law Minister in Central Govt. and founder of Bhartiya Vidya Bhawan also Chairman of World Sanskrit Academy organized World Sanskrit Conference on 11-12 January, 1957 in Kurukshetra (Haryana). Dr. K.M. Munshi permitted the inauguration of the World Academy of Ayurveda and on 11th January 1957 in Kurukshetra, under the able patronage of the then President of India Dr. Rajendra Prashad ji the World Academy was inaugurated by Dr. Pratap Singh Ji, the first Advisor of Ayurveda, Government of India. At that time galaxy of Ayurveda were present. Among others the names of Dr. Satya Ketu Vidyalankar Education Minister of Punjab; Vaidya Ashutosh Majumdar Registrar Indian Medicines Board Delhi; Vaidya B.N. Sarkar need to mention. Acharya Prabhakar Mishra convenor highlighted the objectives of the World Academy of Ayurveda. Pt. Shiv Sharma was nominated as first President of the Academy; Pt. Haridatt Shashtri and Vaidya Ashutosh Majumdar were nominated as Vice-Presidents whereas Prabhakar Mishra was nominated as General Secretary of the Academy. Various

conferences, seminars, camps and symposiums were organized from time to time. During the past years a committee was formed in order to popularise Ayurveda in India through imparting compulsory teaching of Ayurveda general knowledge among the students. For this a syllabus was prepared and the students of schools and colleges are now taking part in Ayurveda general knowledge examinations. During the past years the present Chairman of the Academy Acharya Prabhakar Mishra visited Nepal, USA, U.K., Canada, Thailand, Brazil, Peru, Switzerland and African countries where he propagated the principles of Ayurveda. As a result, now the Ayurveda is recognized at the world level. The people are now attracted towards Ayurveda. So much so the World Health Organizatioin (WHO) now strongly favours the principle of Ayurveda maintain of the good health of a healthy one. Actually Ayurved needs effective leadership in India. Ayurveda Acharyas remain busy in teaching and medical practice, they do not get chance to work at world level.

However, we are too hopeful that by the end of the century the World Academy of Ayurveda is committed to send Ayurveda to nick and corner of the world. For this purpose world level organization is being created and efforts are being made to open branches in each state of India. Discussions are going on in order to organize World Ayurveda Conference in India, Thailand, Holand, USA and Nepal. In order to make Aurveda (Science of Life) a rich science in the world and bring it to the main stream of the World Science it is the duty of all vaidya and well wishers of Ayurveda to extend their full cooperation in this endevour. Make the World Academy of Ayurveda strong by joining its membership and by making more and more members.

22. Recommend Central/State Govt. to give financial assstance to Ayurved Graduates/Post Graduates/Ayurved Colleges, Herbal Gardens.

23. Constitute Global Ayurved Parliament consisting of Eminent Scientist, Ayurvedacharyas, Yog Experts and Alternate Medicine Experts which can work for health care and establish Health Care Fund which can be used for disease free world and give recommendation to various Govts.

24. Educate the masses through Ayurved Yog Rath regarding the Medicinal Plants, how to live disease free and lead a better life style.

25. Celebrate Dhanvantari and Patanjali Jayanti in Schools, Colleges, Educational, Technical Ins.itutes, Religious Institutes and also to organise these Jayanties at National Levels, organise free Ayurvedic Health Camps at the National Level.

26. Establish Herbal Gardens in Schools, Colleges, Universitiies, Public Gardens.

What AVP has achieved so far

A number of cells have been constituted namely :

1. Ashram-Devasthan cell to promote the Ayurved from Temples-Ashrams-Gurudwaras- Churches-Mosques.

2. Training programmes for cultivation of Medical plants

3. Rishi-Krishi and Micro Biofertilizers cell of Rishi-Krishi Techniques and Microbial Biofertilizers use in organic farming of Medicinal Plants.

4. Environment management Cell.
5. World peace and Ayurved Cell
6. Yoga and Naturopathy Cell

Seminars, Felicitation of Eminent Vaidyas and Scientists contributing to Ayurved and Ayurved Health Camps organsed. A number of Seminars have been organized by AVP for the popularisation of Ayurved and discussing policy matter related to Ayurved.

During the Maha Kumbha Mela of 2001 at Allahabad which was the first Kumbha of 21st century, and International Conference on Ayurved was held in the Campus of Kumbha under the presidentship of AVP, Late Pt. Nanak Chand Sharma. A number of delegates both from India and abroad participated. During that conference it was unanimously decided that in future, the Kumbha Mela should be celebrated as Ayurved Mela, as the Amrit Kalash of Lord Dhanwantari was appeared long long ago. Infact Kumbha should be used for community Health, enviromental management. AVP should actively participate in both half and Full Kumbha (Ardh and Purna Kumbhas) and should give free Ayurvedic medicines to the patient so that masses should have confidence over the Ayurvedic concepts and healing methods.

(i) A major felicitation programe was held at Siri Fort, New Delhi in which the eminent Vaidyas of the country were felicitated by AVP for their services for their commitments for Ayurved. These Vaidyas were awarded "Ayurved Gaurav" Certificates.

(ii) The second major felicitation programe was held on 8th August 2005 in Ramlila Ground Hanuman Vatika, Asaf Ali Road, New Delhi. Pt. Shri Ram Sharma Chairman, Indian Medical Council, G.O.I., Vaidya Brihaspati Dev Triguna, Chairman, National Academy of Ayurved, G.O.I were given the special awards by AVP. Padma Vibhushan and renowned Vaidya Sh. Brahaspati Dev Triguna was honoured with a award of Ayurveda Jagadguru.

(iii) Two days' Seminar "Importance of Yoga and Naturopathy" sponsored by Central Council of Yoga and Naturopathy, Deptt. of Ayush, MHFW, GOI was organized in Hindu Maha Sabha Auditorum, New Delhi on 12-13 Dec. in which 250 delegates from different states participated and 15 learned speakers gave their presentations. 11 eminent scientists from National Research

For this purpose Ayurveda suggests to use a tonic of good moral character and also to performs yoga and pranayamas daily. Naturopathy is also very helpful to keep the body healthy and strong. Depending upon the climatic conditions of a country, its climate and seasons as well as the environment, one has to follow the rules of the nature for keeping himself healthy. The cleanliness of five elements. The earth, the water, the fire, the air and the space. These are also pay an important role for being healthy human being as described in Agnivesh Sanhita of Charaka.

2. Cure of illness of a Patient :

(आतुरस्य रोग प्रशमनम्)

According to the medical system of Ayurved, The vaidyas cure the basic causes of one's ailment and not suppress the disease. The vaidya generally uses harmless herbal medicines free from their side effect or chances of relapsing the sickness. Ayurveda is not a rival of any system of medical treatment but it advocates for the use of such medicines which are harmless and possessing no side effect. शमयेत् योन कोपयेत्

The system of treatment in Ayurveda and the process of preparing the medicines, both are very scientific and based on the long research made by great Ayurvedic Scholars and the experiences of great sears and sages.

Now it is further necessary to conduct much more researches on herbs and medical plants and trees depending upon the climatic conditions, seasons and environment of a particular country. Perhaps vaidyas of the past had also realized who had given verdict in the classical literature of Ayurved to make changes in formulas and prescription's where they feel necessary & important. Charak also says गणोक्तमपि तत् त्यजेत्

Now the inclination of the Government of India is changed. She has started to pay some attention towards Ayurveda also. This is because the public is in favour of Ayurvedic treatments and wants its development. But it is not sufficient for the encouragement of Ayurveda. Step motherly treatment for Ayurveda is still going on. Ayurvedic practitioner and vaidyas are humiliated and misbehaved even for their minor mistakes or omissions. No

solid efforts are being made to popularised Ayurveda in the country.

Keeping in view the above circumstances, Ayurveda Vishav Parishad (A regd. NGO) is going to organize Ayurveda Sena for the protection and development of Ayurveda and to solve its day to day problems. The sena will also provide patronage to the Vaidayas, Ayurveda Scholars and Students to solve their difficulties.

Now it is a duty of every Ayurvedic Medical Practioner, Ayrvedic Schoolar, Students, Ayurvedic Pharmacies to join, help and cooperate Ayurveda sena and extend their full support for the success of such organization.

The lectures and oral discussions are not enough to save Ayurveda from the clutches of its enemies. It needs united efforts and powerful campaign for the achievement of the destination and to hoist the flag of Ayurveda at universal level.

It is also required to celebrate Dhanvantari Jayanti as a World Health Day and to organise public conference on high level on the occasion to make Ayurveda popular in the world.

The aim and object of Ayurveda Sena is to form Healthy World. A reverberation of hollow slongan of world peace is being heard every where for long. But the person who possess sound physique and fresh mind may be successful to establish peace in the world.

The determination of Ayurveda Sena is to establish a family of World Peace. Which may flourish in fresh and healthy atmosphere.

Kumbha Melas are celebrated in Nasik, Allahabad, Ujjain, Haridwar after a span of 12 and 6 years. These are the symbol of Ocean Churning. As a result of churning Dhanvantari was appeared from the ocean having a Kalash of Amrita in his right hand and amrit calp vanaspati in his left hand. The Kalash (Pitcher) is a memoirs of lord Dhanvantari. These Kumbha Melas are the Ayurveda Kumbbha Melas in the real sense. Now a proposal of celebrating Kumbha Melas as Ayurveda Kumbha Mela under consideratoin. The message of Ayurveda will be spread through these melas. The idea of organising Ayurva Sena is also to compel the Government of India and states to open a seperate Ayurveda Department and a minister of Cabinet level to look after the development of Ayurveda and to make suitable afforts for its

popularity. The sena will act as a pioneer for the proposal.

Most of the Practioners of Allopathic systems of medicins are not acknowledging the principle of Ayurveda to keep healthy man always healty. This principle of सर्वे भवन्तु सुखिनः (may all be happy) goes against their business and checks them to extort money from the pockets of sufferers. But the aim of AVP (Ayurveda Vishwa Parishad) and Ayurveda Sena is different. Both the organizations are committed to serve the humanity without any self interest. Therefore they need co-operation from all such persons and institutions who are lover and well-wisher of Ayurveda.

The principles of Ayurveda are under publicatioins in differents languages of India and abroad and soon will be circulated throughout the world.

A syllabus for Ayurveda Pravesh and Ayurveda Parichaya is also under preparation. The students of High School level will be eligible to appear in such examinations. These examinations will be helpful to keep their students healthy and able to spread the message of health in the Community they live.

Ayurveda Vishwa Parishad is also resolving to open a Herbal University to make their students aware about the preservation and cultivation of common herbs and knowledge of rare vegetations.

Your suggestions and proposals in this regard are invited. Address for correspondence is given below :
